01 Introduction to e-commerce website optimization 1

E-commerce website optimization 1

How does it work 2

Summary 5

Notes 6

02 The kick-off 7

Get the team in place 7

How big should your team be? 10

Gathering evidence with tools 10

Split-testing platform 15

Summary 15

Notes 16

03 How people buy 17

Why do people buy? 17

What makes people buy? 18

Are you selling to 5 per cent of the brain? 19

Six principles of influence 20

The consumer buying decision-making process 23

FBM Model of behaviour 26

Summary 28

Notes 28

04 Essential research 31

The research landscape 31

Personas 33

User journey mapping 37

Usability testing	43
E-mail surveys	49
Summary	53
Notes	54

05 Add depth with further research 55

Heuristic evaluation	55
Interviews	60
Feedback and transcript analysis	62
Onsite polls	63
Satisfaction survey	64
Customer immersion	65
Competitor analysis	66
Value proposition	67
Visitor behaviour maps	72
Session recordings	76
Onsite search	76
Form analysis	78
Exclusion split tests	80
Technical site performance audit	81
Summary	82
Notes	83

06 Merchandising analytics 85

New product analysis	85
Ratio analysis	90
Navigation analysis	91
Look-to-book analysis	91
Price-point analysis	93
Price testing	95
Summary	96
Notes	97

07 Creating the optimization plan 99

Ideation	99
Sorting the ideas in the optimization plan	104
How to prioritize ideas	108
Summary	117
Notes	117

- 08 Hypotheses and creative work 119**
 - What is a hypothesis 119
 - From hypothesis to creative work 120
 - Case study – Xero Shoes 128
 - Summary 132
 - Notes 132

- 09 Testing your hypotheses 133**
 - The case for split testing 133
 - Types of split test 136
 - Big and small changes 138
 - Making the choice 139
 - Statistics for optimizers 141
 - How long should a split test run? 145
 - Split testing low traffic sites 146
 - How to avoid common testing problems 148
 - Interpreting test results 150
 - Declaring a win 154
 - How to deal with negative tests 158
 - Document test results 160
 - Summary 162
 - Notes 163

- 10 Personalization 165**
 - What is personalization? 165
 - Different forms of personalization 165
 - When should you personalize? 169
 - Technical options for personalization 171
 - How does personalization differ from split testing? 172
 - Simultaneous testing and personalization 172
 - Summary 173
 - Notes 174

- 11 Optimizing the optimization 175**
 - Summary 179

12 People and culture 181

How to find, select and motivate in-house conversion optimizers 181

Obstacles to a culture of optimization 187

Successful optimization cultures 190

Case Study: So what does a culture of optimization actually look like? 191

When to outsource 192

Summary 193

Notes 194

13 Multilingual conversion optimization 195

Welcome visitors from afar 195

Our approach to multilingual optimization 197

Changes that will need to be made 206

Summary 207

Notes 208

14 Launching a new website 209

Do you need a new website? 209

Five stages of a new website 213

Strategy stage 214

Early stage protection measures 216

Middle stage protection measures 217

Final stage protection measures 219

Live stage protection measures 220

Summary 221
